

Intercall systems inc.™

**We Engineer Peace of Mind
Offering Innovative Nurse Call Solutions
Since 1972**

WITH INTERCALL YOU HAVE A CHOICE OF NURSE CALL

- **Streamlined Communication:** Our nurse call systems are designed to simplify the nurse's role in a fast-paced, high-pressure environment, ensuring efficient and reliable patient communications.
- **Versatile Options:** Choose from the Vista visual-tone series or the advanced Ultra series. The Ultra series offers wired and wireless options and is designed for seamless network and third-party integration, aligning with your organization's patient satisfaction goals.
- **Cost-Effective Solutions:** Our all-inclusive product line allows you to select a model that meets your needs without overspending. We offer a range of solutions tailored to your organization's specific requirements.
- **Backward Compatibility:** Upgrade your nurse call system with ease, as our systems are built to be backward compatible. This eliminates the need for a complete system overhaul, ensuring a smooth transition and minimal disruption to patient care and staff operations.

ABOUT US

- **Over 50 Years of Expertise:** With over five decades in the nurse call industry, Intercall Systems has a proven track record of delivering high-quality solutions for healthcare facilities.
- **Expert Guidance:** Our team of experienced engineers and programmers is readily available to understand your specific needs and recommend the best system for your facility.
- **Customer-Centric Mission:** As a leading Nurse Call System Manufacturer, our goal is to provide reliable, user-friendly systems that are both staff-friendly and innovative, catering to a wide range of nurse call needs.
- **Made in the USA:** All our systems are designed, engineered, and manufactured in the USA, ensuring prompt availability of parts and swift support.
- **Custom Solutions:** We specialize in customization, offering tailored solutions to meet your unique requirements. If you can envision it, we can create it.

ULTRA SERIES

Our Innovative Nursecall Technology

Intercall's primary goal is to enhance patient satisfaction and streamline staff efficiency for improved care services. The Ultra Series achieves this with its powerful software platform, which provides essential tools and features for an optimal nurse call system.

The Ultra Series - software with so many possibilities

- Staff Assignments: Efficiently link staff members to patients, rooms, shifts, wireless phones, and RTLS badges for optimal management and coordination.
- Customizable Call Settings: Tailor call priorities, dome colors, flashing rates, color-coded icons, and station indications to meet specific hospital preferences.
- HL7 Integration: Ensure seamless data exchange and system compatibility with integration to the industry-standard HL7 protocol.
- Management Information Reports: Generate detailed reports with local and optional remote database connections, featuring export options to Excel for thorough analysis.
